

ABOUT KING'S FERTILITY

King's Fertility is a partnership between King's College Hospital and the Fetal Medicine Foundation (FMF). Our ethos is to always put our patients first and operate as pioneers in the world of fertility. Therefore, profits made at King's Fertility are routed back to the FMF to fund its innovative research and charity work.

At King's Fertility, our mission is to provide patients with a life-changing, positive experience, using cutting edge technology and advanced treatment methods. We are devoted to creating a respectful and welcoming environment where, with our continuously improving success rates, patients can fulfil their dreams of becoming parents.

We work hard to ensure our services are priced fairly and transparently, with no hidden costs involved. We believe everyone has the right to be parents and we have made it our life's work to help create happy families. We do this by providing honest, compassionate and comprehensive fertility care and by surrounding ourselves with leaders in the field.

Through advanced medical education and research, and with the right industry partners, we aim for a day when everyone who wants to start a family can. We listen to our patients. Each person is unique and we respond to your specific needs with tailored options and personalised care.

KING'S FERTILITY LIMITED RESPONSIBILITIES

Due to the complex nature of fertility treatment, King's Fertility Limited cannot take responsibility for an unsuccessful final outcome in the provision of our Services, nor can we guarantee that any Treatment will be without complications.

We will endeavour to provide all Services in accordance with the Treatment Plan which has been deemed by all parties as appropriate for you, the Patient. The Treatment Plan will form part of the Patient Notes, as will record of any adjustment to such plan during the course of Treatment.

PATIENT RESPONSIBILITIES

All information provided to us must be true and accurate. You are required to correct any information which is subsequently identified as incorrect, inaccurate, or incomplete.

You must read and sign any consent forms required in relation to your treatment. You must seek clarification for any document (or part thereof) that you feel is unclear. If you do not agree any part of the forms, you must inform us immediately.

If at any time you withdraw your consent for any (or all) treatment or storage, you must do so by giving written confirmation with such notice delivered in reasonable time.

Some treatments require mandatory counselling and/or mandatory blood tests for screening purposes. You agree to undertake these, and accept that treatment may be delayed until they are completed.

You must notify us in writing of any change in personal circumstances that is relevant to your treatment, consent given by you and/or your partner, or the storage of gametes.

CONFIDENTIALITY

In all matters between the Parties, King's Fertility Limited will comply at all times with the requirements of the Data Protection Act 1998, the Human Fertilisation and Embryology Act 1990, and the HFEA Code of Practice with regard to maintaining the proper standards of medical confidentiality and the handling of personal information of Patients.

FEES AND PAYMENT

The Patient shall pay the fees relevant to the Services and Treatment received as set out in the Price Guide. The total price of which will be agreed between the parties.

In relation to consultation appointments, the Patient shall pay all invoices submitted to them in full and cleared funds, upon booking. We reserve the right to cancel any appointment if payment has not been received in full and cleared funds.

In relation to blood tests not included in Treatment Packages, the Patient shall pay all invoices at the time the test is performed.

In relation to medication, the Patient shall pay all invoices, including delivery charges, at the time the prescription is issued. Medications are not returnable or refundable.

In relation to Treatment Cycles, the Patient shall pay all invoices prior to the Treatment commencing (Day 1). We reserve the right to cancel or suspend any Treatment if payment has not been received in full and cleared funds at this time.

King's Fertility Limited reserves the right to amend the prices published in the Price Guide. We will honour any prices in effect at the time the Financial Consent form is signed.

No refunds are due to the patient if Services have been performed.

Refunds to the Patient, per the values in the Price Guide in effect at the time said Treatment was paid for, in respect of Treatment Packages cancelled for medical reasons will be issued within 28 days.

COMMENCEMENT, DURATION AND TERMINATION

Treatment will commence upon meeting certain conditions:

- i. All relevant screening checks of the Patient have been conducted;
- ii. The results have been received by King's Fertility Limited;
- iii. The Patient does not have a pre-existing medical condition or other factor that would exclude them from meeting criteria for treatment;
- iv. The relevant consent forms have been signed;
- v. Cleared funds have been received by us, or funding has been confirmed for NHS Patients

The Contract continues for the duration it takes to provide the Services.

Either party may terminate the Contract without liability to the other immediately on giving notice, and without prejudice to any other rights or remedies which the parties may have, if:

- i. The other party commits a breach of any of the terms of the Contract and fails to remedy the breach (where such a breach is remediable) within 30 days of that party being notified in writing of the breach; or
- ii. The other party is subject to any step towards bankruptcy or liquidation; or
- iii. The other party suspends or ceases, or threatens, to carry on all or a substantial part of its business; or
- iv. The other party fails to pay any amount due under the Contract on the date such payment is due.

Upon termination of the Contract, the Patient shall immediately pay any outstanding amounts on their account.

THIRD PARTIES

From time to time, some additional services may be required in the course of your treatment. Where those Services provided by Third Parties are not included within our standard rates, they will be charged at the Third Party provider's rates.

CIRCUMSTANCES BEYOND THE CONTROL OF EITHER PARTY

In the event of any failure by a party because of something beyond its reasonable control, the party will advise the other party as soon as reasonably practicable.

King's Fertility Limited shall have no liability to the Patient under the contract if it is prevented from, or delayed in performing its' obligations under the Contract or from carrying on its business by acts, events, omissions, or accidents beyond its reasonable control.

LIABILITY

King's Fertility Limited does not exclude liability for:

- i. Any fraudulent act or omission
- ii. Death or personal injury caused by negligence or breach of our other legal obligations.

King's Fertility Limited are not liable for loss which was not reasonably foreseeable to both parties at the time when the Contract was made.

Subject to this, we hereby set out the entire financial liability of King's Fertility Limited (including any liability for the acts or omissions of its employees, agents, consultants, and subcontractors) to the Patient in respect of:

- i. Any breach of the Contract;
- ii. Any use made by the Patient of the Services; and
- iii. Any representation, statement or tortious act or omission (including negligence) arising under or in connection with the Contract.

All warranties, conditions and other terms implied by statute or common law are, to the fullest extent permitted by law, excluded from the Contract.

Subject to the conditions in this clause, King's Fertility Limited's total liability in contract, tort (including negligence or breach of statutory duty), misrepresentation, restitution or otherwise arising in connection with the performance, or contemplated performance, of the Contract shall be limited to the price paid for the Services

GOVERNING LAW, JURISDICTION, & COMPLAINTS

The Contract (including any non-contractual matters) is governed by the law of England and Wales

We try to avoid any dispute, but if a dispute should arise the Patient should contact us in writing to find a solution.

We follow the Human Fertilisation and Embryology Authority's ("HFEA") Code of Practice, available from www.hfea.gov.uk

10. FINANCIAL CONSENT

1. I/We have seen the current price guide and have discussed the treatment fees for this treatment cycle. I/We agree to pay these within the terms set out by the clinic.
2. I/We understand that this agreement and the price guide is current at this time, however, the clinic may review and revise prices without notice.
3. I/We understand that all consultation and diagnostic work-up fees must be paid in advance or on the day of the appointment, and that failure to do so may result in the work-up and treatment cycle being cancelled, and a cancellation/administration fee being charged.
4. I/We understand and agree to pay all treatment fees prior to starting the medication, and if a treatment cycle is cancelled a cancellation fee is charged. I/We understand that the clinic does not offer the option of paying in instalments.
5. I/We understand that all outstanding balances must be cleared before treatment can commence.
6. I/We understand that any arrears apparent on accounts must be paid in a timely fashion. Failure to do so may result in the debt being referred to a collection agency. In these cases, I/we may be charged for any legal or other costs that the clinic may incur in recovering the debt, including a fee for reasonable administrative costs.
7. I/We understand the individualised treatment cost plan includes an approximate cost for medication which must be paid for separately.

8. I/We understand that the team at the clinic will order the appropriate amount of medication for our treatment in accordance with our treatment plan, however, as dosages may be adjusted during the cycle, I/we may need to purchase more medication or may have some left over.
9. I/We agree to pay for the additional medication (delivery charges will be applied). I/We accept that some high-cost drugs may remain unused and which cannot be returned for a refund.
10. I/We have an understanding of the pricing structure at the clinic and are aware that in addition to the treatment costs, we will be required to pay for any additional items/services required for our treatment. We are aware of the different fees applicable and agree to pay for these.
11. I/We understand that if a procedure takes place (either an egg collection or insemination), that full fees for that treatment cycle are applicable (i.e. IVF/ICSI/FET/IUI etc.), irrespective of outcome.
12. I/We understand that our treatment may require additional procedures (such as blood tests, ICSI, HyCoSy, etc.) which are charged separately and are in addition to the procedure costs. I/We are aware of the costs and accept to pay these on the day of the procedure or blood test.
13. I/We understand that there is a fee for freezing and storing gametes and embryos and agree to pay this when/if I/we request to have our gametes and embryos frozen. I/We understand the pricing structure for storage and are aware that we will need to pay additional fees, prevalent at the time, for continued storage, after the initial period. Failure to pay fees may result in the cancellation of the storage facility and loss of any stored gametes and embryos. I/We understand that it is our obligation to provide the clinic with up to date contact details for correspondence.
14. I/We understand that our treatment cost covers one follow-up consultation (should the treatment cycle be unsuccessful). The appointment must be within 3 months of treatment, after which time a fee for a follow-up consultation will be charged at the rates current at the time.
15. I/we understand that should our treatment be cancelled due to the Coronavirus (COVID-19) pandemic, I/we will be responsible for any financial implications directly associated with the cycle. This includes medication, blood tests, treatment already undertaken. The finance team will advise of the costs and these will be payable prior to starting any future cycles.
