2. I/We have seen the current price guide and have discussed the treatment fees for this treatment cycle. I/We agree to pay these Charges in accordance with these Terms and Conditions.
3. I/We understand that these Terms and Conditions and the Price Guide are current at this time, however, the clinic may review and revise Charges and these Terms and Conditions without notice.
4. I/We understand that all Charges must be paid in advance of the appointment, and that failure to do so may result in Services being cancelled, and a cancellation/administration fee being charged.
5. I/We understand and agree to pay all Charges prior to starting the medication, and if Services are cancelled a cancellation fee is charged. I/We understand that the clinic does not offer the option of paying in instalments.
6. I/We understand that all outstanding Charges must be cleared before Services can commence.

In these cases, I/we may be charged for any legal or other costs that the clinic may incur in recovering the debt, including a fee for reasonable administrative costs.
8. I/We understand the individualised treatment cost plan includes an approximate cost for medication which must be paid for separately.
9. I/We understand that the team at the clinic will order the appropriate Goods for our treatment in accordance with our treatment plan, however, as dosages may be adjusted during the cycle, I/we may need to purchase more Goods or may have some left over.
